

Agenda of Client Meeting

Team 8

Thursday 4th May, 2017

Time and Place

The sixth client meeting for the MCI Project will be held in Ingkarni Wardli 4.48 at 3pm on Monday.

Present

1. Hangyue Xu
2. I-Sheng Chris Wang

Client: Christoph Treude

Apologies

None

Meeting Procedures

Demonstrate the project progress on what have done:

- We have changed the web-deployment model. We are currently using Digital Ocean to deploy our program on live, formerly as Amazon Web service.

Reason:

- We have been charged the cost due to over limit on testing the user input data.
- Amazon web service may not reliable as Digital Ocean. It prompted user error message at least three times out of ten whereas Digital Ocean doesn't prompt user error at this moment.
- The speed is quite fast.
- Digital Ocean provided some start-up money by registration using the student identification while Amazon don't have such benefits for students.
- URL provided: <http://192.241.254.68>

Other Issues

On-going improvement:

1. Improve graphical user interface
2. Differentiate the difference between “0” and “none” after the result being aggregated
3. Fixed the bug about extracting the section heading.

Next Meeting

Proposing 11th May, Thursday at 3pm.
